

SUPER TRANSMISSION OIL

Gear lubricant recommended for use in transmissions of heavy duty vehicles where OEM recommends API GL-1 oils, off-road units, agriculture equipments, construction and mine equipment with light loads and with no requirements of extreme pressure (EP) additives. It can be used in enclosed gear boxes, non- hypoid, conic differentials, spirals and spur gears.

Benefits:

- Oxidation, deposits and foam resistance.
- It maintains a strong lubricant film at high temperature in severe working conditions, reducing wearing of components.
